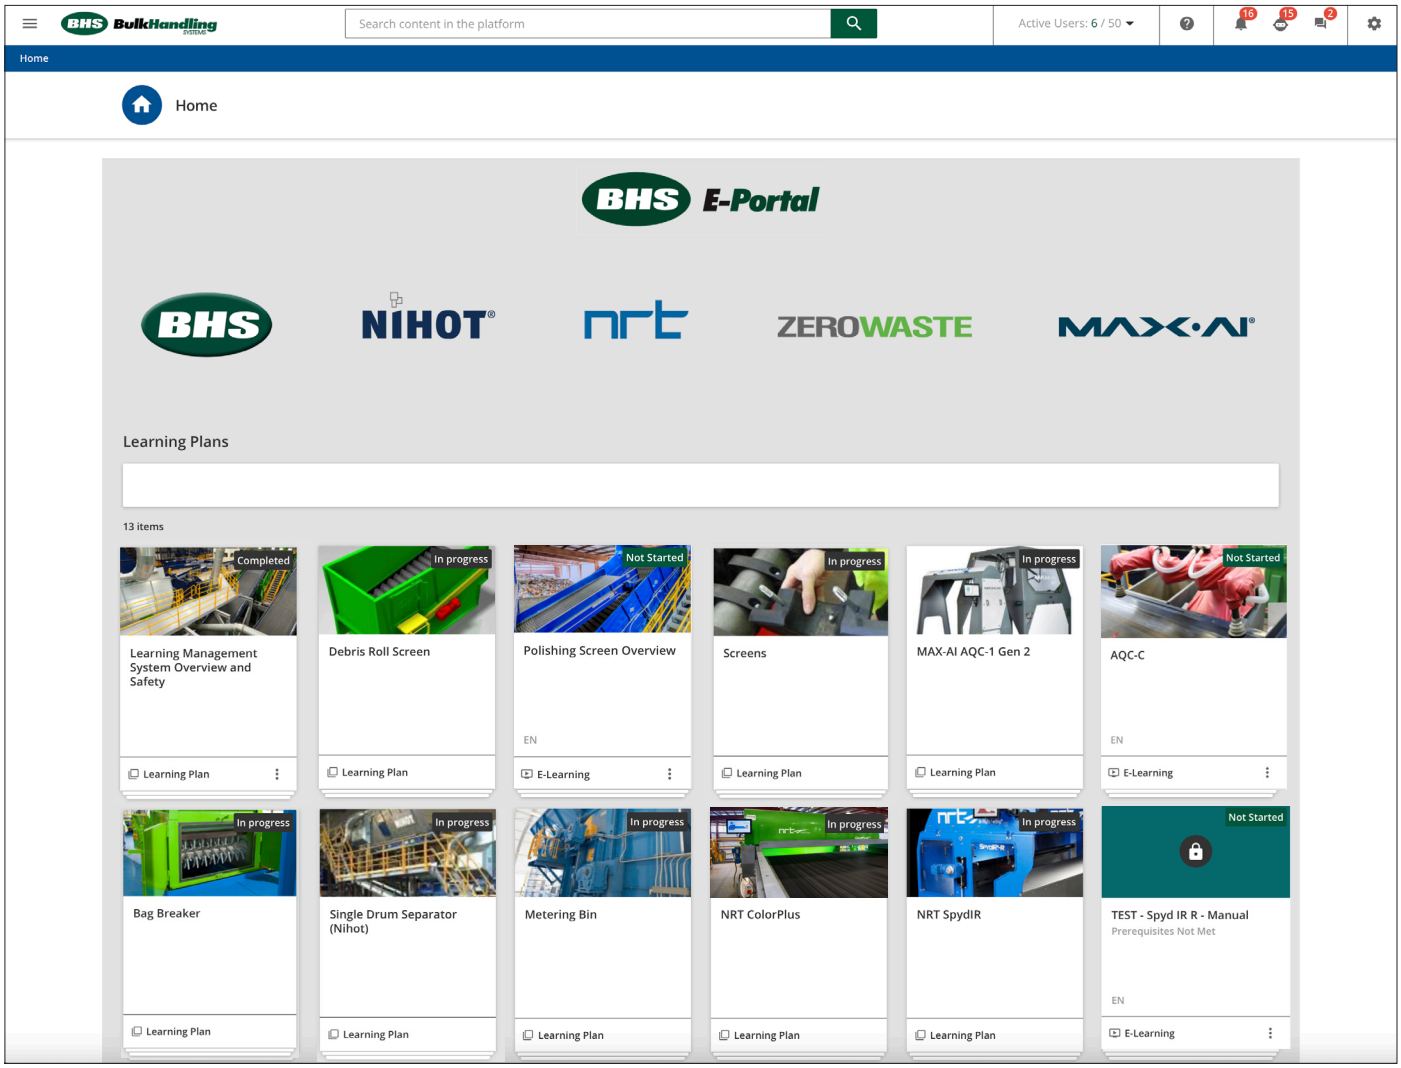
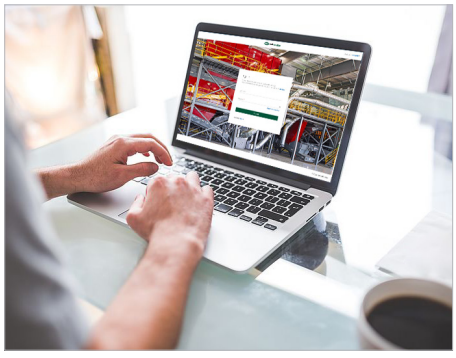
BHS Total Support Resources





The **BHS Resources Portal** is available 24/7 through our website, providing our customers with instant access to system-specific information including learning courses, equipment training, maintenance instructions and safety & service tips. Access to these valuable tools is available through any browser (mobile friendly) and on phones and tablets through the Go Learn app.

The portal gives our customers unlimited access by multiple users, instant access to updated information, reference information and course certification by OEM. Each portal user receives a link to download site-specific manuals for use locally.

- Easily track employee training progress
- Resources can be referenced 24/7 on browser or mobile device app
- Safety courses included in training modules
- Learning plans include final course test with manual references
- Courses can be used as refresher training
